

Job Performance Requirements: Fire Hose

NFPA 1001 5.5.4* (2002) Clean, inspect and return fire hose to service, given washing equipment, water, detergent, tools and replacement gaskets, so that damage is noted and corrected, the hose is clean, and the equipment is placed in a ready state for service.

- (a) **Requisite Knowledge** – Departmental procedures for noting a defective hose and removing it from service, cleaning methods, and hose rolls and loads.
- (b) **Requisite Skills** – The ability to clean different types of hose, operate hose washing and drying equipment; mark defective hose; and replace coupling gaskets, roll hose and reload hose.
